

SPRAYED FOAM INSULATION

FEATURING DEMILEC®

County Insulation Company (CIC), is a certified Demilec applicator, providing a full line of spray foam insulation products.

DEMILEC (USA) Products

DEMILEC (USA) LLC develops and manufactures some of the most popular and highest-performing foam polyurethane and polyurea products in the world. We complement these items with world-class training services and auxiliary products that provide a complete, top-of-the-line set of professional tools and equipment.

Following our commitment to environmental protection and improvement, DEMILEC (USA) has supplemented *SEALECTION*® 500, our premium spray foam insulation, with more Green foam insulation products that are based in renewable and recyclable products. Our Green insulations provide superior performance and durability that far exceeds the standards of the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Green Building Rating System.
